Diandra Sri Sakanti Argyanti Anggari

Computer Science Student | BINUS University @Malang

Malang, Indonesia | +62 812-3486-1369 | hi.diandraanggari@gmail.com | LinkedIn | GitHub

SUMMARY

Third-year Computer Science student at BINUS University with a focus on front-end development and UI/UX design. Hands-on experience in HTML, CSS, Figma, and PostgreSQL. Developed leadership and communication skills through academic, teaching assistant, and organizational roles. Seeking an internship to apply technical knowledge and contribute to real-world digital solutions.

EDUCATION

BINUS University | *Bachelor of Computer Science (S.Kom.)* — Malang | Aug 2024 – Aug 2028 (Expected)

- GPA: 3.83/4.00
- Relevant Coursework: Data Structures, Database Technology, Human and Computer Interaction, Software Engineering, Object Oriented Programming

PJ Global School | *Natural Science* — Malang | Jul 2021 – Jun 2024

- Best Team Participant, Game Development Training Program organized by STIKI Malang (2023), building a game using Construct 3.

PROJECTS

Griya Raden Saleh | *Scrum Master* — Malang | Feb 2026 – Jun 2026

- Led a team building a web-based boarding house management and booking platform, coordinating tasks and applying the Scrum framework.
- Documented client requirements, product backlog and conducted system evaluation (UAT, UEQ, black box, white box testing). Project stack: HTML, CSS, GitHub, Google Sheets.

BatikLens: Digital Batik Recognition | *AI Developer* — Malang | Sep 2025 – Jan 2026

- Prepared the image dataset and developed a batik motif classification model using MobileNetV2.
- Integrated the model into a Streamlit web app that predicts the motif and displays its origin and cultural philosophy. Tech: Python, TensorFlow, Keras, Streamlit.

BodyBuddies: AR-Based Human Body Learning | *Book & AR Designer* — Malang | Feb 2025 – Jun 2025

- Designed an educational book introducing children to human organs through engaging illustrations and interactive learning materials.
- Created Augmented Reality (AR) experiences using 8th Wall to visualize human organs, making science learning more interactive. Tech: 8th Wall, Canva.

EXPERIENCE

BINUS University | *Teaching Assistant* — Malang | Feb 2026 – Present

- Data Structures: Co-instructed 5 weekly lab classes for 40 students, explaining core concepts and guiding practical exercises in C (Dev C++).
- Database Technology and Computer Networks (currently): Co-instructed 4 lab classes of approximately 20 students each, guiding SQL practicums in PostgreSQL and network configuration in Cisco Packet Tracer.

SPNF SKB Posko Kelurahan Karangbesuki | *Science Tutor* — Malang | Aug 2025 – Present

- Teach weekly science classes to approximately 5 junior high equivalency students (grades 7-9), adapting explanations to different learning levels.

LEADERSHIP / ORGANIZATIONAL EXPERIENCE

Bina Nusantara Computer Club (BNCC) | *Staff, Human Resource Development* — Malang | Sep 2024 – Aug 2026

- Led the Event Division for BNCC TechnoScape 2026 Malang, the club's flagship event, managing the rundown of a hybrid fintech workshop attended by 50+ participants.
- Served as Head of Event for BNCC Synergy Camp 2026, overseeing event preparation and ensuring smooth execution for 30+ participants with a committee of 10 members.

- Mentored participants in the Leadership Development Program (LDP) 2026; earlier trained in front-end web development and UI/UX design.

BINUS University | *Freshmen Partner (B2029) & Freshmen Leader (B2030)* Malang | Sep 2025 – Sep 2026

- Guided 70+ freshmen in adapting to campus life and completing their volunteer projects.

SKILLS

Front-End & Design: HTML, CSS, Figma, Canva, Stitch

Programming & Database: C, Python, PostgreSQL, MySQL

Tools: Google Workspace, Visual Studio Code, GitHub, Vercel

Soft Skills: Teamwork & Collaboration, Attention to detail, Communication, Problem solving

Languages: Indonesian (native), English (CEFR C2.2 coursework, BINUS University)
